

You will be creating a PiCoMap of the Leadership Course that has been beamed to you.

Use the course objectives given at the beginning of the leadership course to create your PiCoMap. Also provide examples. These objectives are:

- Identify 4 qualities of leadership
- Recognize the difference between managing and leading
- Relate the 4 qualities of leadership by reading 2 case studies

After you create your PiCoMap you will share it with your peers.

You will then be beamed Quizzler and the quiz for the Leadership Course. You will take the quiz on your own without using your PiCoMap.
